The student can have as many lessons per week as he/she wishes, a minimum of one lesson per week is required. **The invoice should be paid in full before the lessons start.** It is possible transfer **one** private class **once** per subscription to another hour or day without losing your payment if you inform the teacher at least 48 hours before the class starts. If you cancel the class late (less than 48 hours before the class starts) or it is a “no show”, that class will sadly be lost. How many lessons on average does one need per level?

Remember it is all individual, usually it is good to get around 25 - 30 classes for the beginners from 0-A2. If you need B1 for the citizenship test it can take additionally from 25 to 50 lessons, that level is more complex, and the learning pace varies from person to person.

The pace of the private lessons is catered to the person taking the lessons, the group pace is an average between the fastest and the slowest person, but I do push it to go fast in the open group.
